Michigan Public Educational Facilities Authority

The Michigan Public Educational Facilities Authority was created in 2002 when it became apparent that a unique, one-stop service center for school facilities that require uncommon mechanisms in order to obtain financing was necessary.

Financing is a challenge to most public schools. For public school academies there are additional challenges to securing financing without access to local property tax. MPEFA is dedicated to providing opportunities for low-cost financing for Michigan's Public School Academies.

Long-Term Financing for Public School Academies

The long-term financing for public school academies provides a low-cost alternative for the purpose of financing land, facilities, equipment, or refinancing existing debt.

MPEFA completed four long-term financing for public school academies issues in 2006 totaling \$22.1 million. MPEFA's bonds were sold at both fixed and variable rates of interest. One of the bond issues was backed by a letter of credit; the other three were sold in \$100,000 denominations in limited public offerings. The four issues are described below
